pa, Esq., Bar-at-Law., Ml 33-24 —3
tary to the Government of
His Highness the Maharaja of Mysore,
Local and Legislative Departments,
BANGALORE.

Sir,

I have the honor to forward herewith copy of Municipal Council's Resolution dated the 1st November 1924, sanctioning estimate for Rs.8,930/- received from the Executive Engineer Water Supply Division, for linking the Aralepet Main directly with the 12'' C.I line in the Avenue Road, for improving the water supply to Aralepet etc., and to request that you will be so good as to obtain the sanction of Government to it at an early date.

2 The amount of the estimate will be met from the savings in the current year's municipal budget.

3. A copy of the estimate together with a copy of the art received from the Executive Engineer is herewith submitted for ready reference and orders.

I have the honor to be,
Sir,
Your most obedient servant,
M G Krishnaswami Rao
Municipal Commissioner.

D.M.R.

R e p o r t.

The enclosed estimate for Rs.8,975/- provides for linking the Arulapet main directly with the 12" C. I. line in the Avenue Road by means of 3" C. I. Pipes. At present Arulapet and Govindapet are experiencing considerable hardships for want of adequate water supply for the past 5 or 6 years and their troubles are increasing year by year. There are two feeder lines to Arulapet, one from Chickpet and another through Ranganathapet but both the mains get evacuated by the time they reach Arulapet. Hence it has been found practically impossible to supply water at convenient hours specially to Govindpet. This is a portion very thickly populated by mostly Adi Dravidas who are all very poor. The tap water is their main stay, and they are entirely depending upon this for their daily needs. It could be seen that almost all the taps in this locality are very badly crowded and the people have to wait for hours at times to get even half of their daily needs from the taps. Best efforts were made to improve with the present arrangement but to no effect. This is the only tangible remedy for the improvement of the locality and funds must be found some how or other to bring about this improvement. It is most pitiable to see these poor people waiting at the taps even at night after 10 P. M.

A 3" C. I. Pipe line is proposed to be laid with no intermediate connection so that this line might supply only Arulapet and Govindpet.

Provision has been made to isolate this locality after the new line is laid.

Early countersignature to the estimate with funds is solicited.

Sd. M.Lakshmana Iyengar,
Range Officer,
Chamarajendra Water Works.
